

**NO STAINS,
NO WORRIES**

Cleanaboo® is a technology which reduces liquid absorption to a significant degree. The spilled liquid turns into droplets and does not permeate the fabric. Thanks to it, spilled coffee, juice or wine will be easy to remove and will not leave stains.

How to clean?

Put a dry cloth or paper towel to the liquid spill and allow it to absorb. Remove the residues with a sliding movement in the direction of the bristle on the fabric. Do not rub or pat the liquid.

Cleanaboo+® is a technology which facilitates the removal of stubborn stains, for instance of coffee, chocolate or pen ink. Thanks to it, particles of dirt do not adhere to the fabric surface and maintenance of the furniture in cleanliness is very easy.

 Cleanaboo+ collections:

ARAGON **FRODO**
KONGO **MAROKO**

How to clean?

Use a cloth moistened with water and delicately rub the stain in the direction of the bristle, until you remove the dirt entirely.
