

FRODO

FRODO

composition

59% polyester, 41% polypropylene

weight

320 g/m² ± 5%

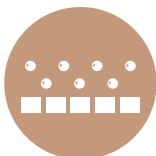

width

142 cm ± 3 cm

seam slippage

Category A

pilling

Category A

abrasion resistance

Category A (90,000 rubs)

test of cigarette

According to PN-EN 1021-1:2014-12

Cleaning with mild agents for upholstery maintenance. Do not wet-clean. Do not iron. Do not bleach. The hue of individual production batches of the fabric may slightly differ from the colours in the sample kit.

With a special view on the highest comfort of use, the Frodo collection has been developed in the Cleanaboo+ quality. The Cleanaboo+ technology is professional protection against stains. Removing soiled remains of ball pen ink, chocolate or coffee has never been easier. Water and a clean cloth is everything that is needed in most cases. The textiles produced in the Cleanaboo+ technology are covered with a special layer protecting the material against penetration of stains.
